

Elevate Your Language Services

The language services industry, valued at \$64 billion in 2022, is projected to reach \$90.8 billion by 2027. Position your organization for this growth with Boostlingo ii. Our platform enhances interpreter management, streamlines scheduling, and simplifies remote interpreting delivery.

Business Operations Management and Scheduling

Management System

Manage the operations of your language services company all from one platform.

- **Comprehensive HR Functions:** Track and store credentials and eligibility in the system. Manage onboarding and continuous professional development of interpreters.
- **Advanced Financials:** Full-scale financial management from start to finish. Robust system supports numerous contract variables for seamless payment and invoicing.
- **Flexible Contract Management:** Configure limitless variable vendor and customer contracts.

Scheduling System

With dynamic processes, ii provides the industry’s most efficient scheduling solution.

- **Efficient Matching:** Easily find interpreters matching job requirements, including company metrics like margin and distance.
- **Dynamic Scheduling:** Utilize various system processes to quickly fill job vacancies.
- **Customizable Templates:** Tailor your communication templates to suit diverse needs.

Mobile App for Interpreters and Customers

- **Interpreters:** Access job details, maps, times, and agency notes. Accept or decline offers, close jobs, add incidentals, and obtain eSignatures.
- **Customers:** Request on-demand services.

Boostlingo ii is your gateway to future-proofing your language services company. Efficient, adaptable, and comprehensive, it’s the solution you need for the evolving demands of the language services industry.

Features:

- Customer portal
- Interpreter portal
